

CT320

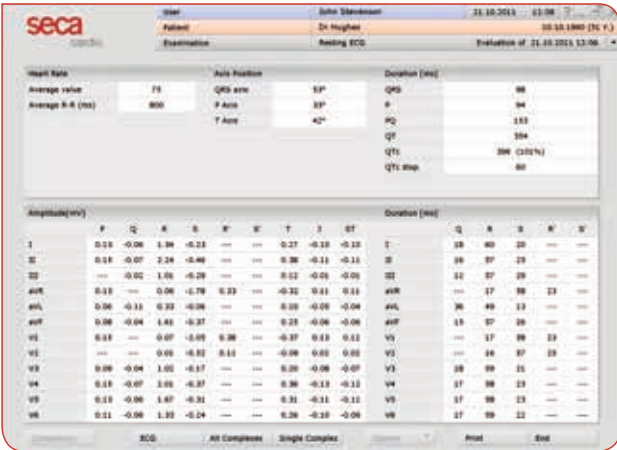

PC based interpretive ECG Machine with USB connectivity

- Compatible with all leading EMR systems e.g., emis, SystmOne, vision, isoft and others
- The seca CT320 with USB connectivity acquires the ECG on any computer/laptop within your healthcare network. Allowing you to directly transfer the patient's ECG report into your Electronic Medical Record (EMR).
- seca cardio software automatically exports a pdf ECG file to a destination of your choice – enabling ease of attachment to the EMR or for e-mailing to specialist ECG centres and use in tele-health applications.
- All features and functions are as the seca CT321 Bluetooth model apart from the power supply which is via a USB connection cable.

- QTC interval - Ideal for Mental Health.
- seca CT320 supplied complete with USB connection cable, patient cable, alligator clips, 500 disposable electrodes and seca cardio software
- No annual licence fees. Compatible with all windows operating systems up to Windows 8.

3 year warranty

CT321

PC based interpretive ECG Machine with Bluetooth connectivity

- Compatible with all leading EMR systems e.g., emis, SystmOne, vision, isoft and others
- Innovative medical Bluetooth Technology removing the need for a USB cable connection, allowing greater flexibility in large clinic rooms.
- The seca CT321 acquires the ECG on any computer/laptop within your healthcare network. Allowing you to directly transfer the patient's ECG report into your Electronic Medical Record (EMR). Compatible with all leading EMR systems e.g., emis, SystmOne, vision, isoft and others.
- seca cardio software automatically exports a pdf ECG file to a destination of your choice – enabling ease of attachment to the EMR or for e-mailing to specialist ECG centres and use in tele-health applications.
- seca cardio ECG software functions: single beat analysis, cumulative complexes, measurement table/interpretation/worklist of ECG reports automatically generated once recorded offering improved work process/single patient database viewed throughout practice network.
- High quality recordings of all twelve leads with a sampling rate of up to 4000 Hz, for viewing, analysis, reporting and printing on every PC in the network. Clearly arranged choice of A4 reports with one click including the popular 4 x 3 with lead II rhythm strip.

- QTC interval – Ideal for Mental Health
- Impedance measurement: all electrodes highlighted with automatic quality indication to ensure the perfect ECG
- Advanced software filters for baseline, electrical interference, anti drift and muscle tremor interference, providing clear traces
- Digital pacemaker detection
- Robust defibrillator proof unit
- Dimensions: 160 x 85 x 25 mm
- Weight: 300 g
- seca CT321 supplied with: Patient cable, alligator clips, 500 disposable electrodes, seca cardio software, Bluetooth dongle, 2 rechargeable lithiumion batteries and battery charger
- No annual licence fees. Compatible with all windows operating systems up to Windows 8.
