The Application of Innovation

Three new innovations to make you smile!

Even greater
affordability!

New labels
with
sharper thinking!

24/7 support,
wherever
you are!

Compliance comes as standard.

SHARPSGUARD®

BS EN ISO 23907:2012 

DANIELS, the makers of your favourite sharps container, have always met the most exacting safety standards and that remains true today with the new international ISO standard.

EU Directive EU2010/13* 

HSE Regulation 2013** 

More than that, our 3 new innovations ensure you fully comply and can prevent sharps injuries in your work area by bringing both a safe container and training for safe disposal to the point of use.

**You wouldn't expect
anything less from DANIELS.**

**HS1S7 'H&SE-Sharps instruments in healthcare 2013 - Regulation/Information sheet.'

NEW
INNOVATION
THE LID

Now, your favourite sharps container is even more affordable - by a safe margin!

New lid level

Previous lid level

By raising the lid, we've increased the useable fill volume

by an amazing **10%**

AND your hands will be a safe distance from the contents.

New fill level

Previous fill level

...to help you lift the lid on savings

The new-design 22L lid and all solid lids will be available in early 2014.

To make things safer and easier, we've thoughtfully added clearer indicators for you on the lid

- so you know where you are

NEW
INNOVATION
THE LABEL
