

Electronic baby scales

Electronic baby weighing scale with digital length measure

ADE M118000-01 (III)

The optionally integrated digital length measuring device will take precise readings of infants up to 80 cm in 2 mm steps. The infant can be freely positioned inside the weighing tray, no additional handling necessary. The measuring results will be shown on the LCD display of the baby weighing scale. All weighing functions and specifications are equivalent to ADE M118000.

Functions: Length measuring, automatic zero setting, tare, hold function, low battery indication, auto switch off, backlight display

Power supply:
Mains and alkaline batteries (4 x AA)
