A glimpse on German Workplace Recommendations:

The recommended quantity of First-Aid Kits is depending on the individual working risks within the different business branches as well as on the number of employees.

Business branch	Risk	Employees		Kit	Filling pursuant to
Administration	low	1 - 50		1	DIN 13157
		51 - 300	*	1	DIN 13169
Manufacturing	medium	1 - 20		1	DIN 13157
		21 - 100	*	1	DIN 13169
Construction	high	1 - 10		1	DIN 13157
		11 - 50	*	1	DIN 13169

*For a larger number of employees further First-Aid equipment is required.

FIRST AID
First-Aid Cases EUROPA

All SÖHNGEN® products are manufactured pursuant to international standards, based on strict German as well as International Norms.

All SÖHNGEN® products are strictly in compliance with the Directives of the European Union.

The product identification complies with the legal requirements of the directives applicable in the sector.

In order to overcome linguistic barriers in the different countries, both the EUROPA cases include a list of contents and a short First-Aid Manual in 14 European Languages.

User-friendly application of bandages and general First-Aid Measures are made easy.

For more products and details please visit our website: www.soehngen.com
